

Pierrel Research is a full-solution Contract Research Organization (CRO) providing drug development services to the pharmaceutical, biotechnology and medical device industries. Our Global Headquarters are in Zurich, Switzerland, with Operational Headquarters in Essen, Germany, Philadelphia, United States, and Saint-Petersburg, Russia.

Currently we are recruiting for our office in **Essen, Germany**:

ASSOCIATE DIRECTOR INTERNATIONAL CLINICAL OPERATIONS

As Associate Director of International Clinical Operations you will report to the Chief Operations Officer and be responsible for:

- Leading, and coordinate a team of International Project Managers
- Supervising that all project management activities are carried out according to ICH GCP, regulatory guidelines and company or sponsor SOPs.
- Ensuring that all international trials are conducted on time, in budget and according to the requirements defined by sponsor policies
- Managing and assuring the project deliverables including but not limited to: proper feasibility assessment, meet study start up timelines, meet patient recruitment targets, contingency plan, follow up and closure of issues in a timely manner, ensure adequate quality, performance and accountability of team members.
- Actively proposing actions and interventions to keep quality and performance standards
- Preparing regular project status updates, and carrying analysis and interpretation of performance metrics, financial data and deviations.
- Preparing and participating to audits or inspections.
- Defining, preparing and monitoring the achievement of departmental goals.
- Coordinating the process of Corrective and Preventive Action Plans

To secure this role is essential to hold:

- Degree (B.S. or its equivalent) in a medical, life science/biological or health related field
- Some years of relevant experience in clinical development including capability to manage phase I to IV multicenter clinical studies from study start-up to study report completion
- Excellent organizational, team leading and both verbal and written communication skills
- Excellent in planning, analyzing and coordinating activities and establishing priorities
- Excellent problem solving and decision-making skills
- Sound knowledge of GCP relevant regulations
- Fluency in English in written and spoken
- Good presentation and computer skills and experiences in the use of standard office programs (Word, Excel, Power Point, etc)

If you think that you have the necessary skills to hit the ground running then we look forward to receiving your CV in English including your contact details, salary expectations, current photo and *ref. AD* at the following e-mail address office.europe@pierrelgroup.com
