

Pierrel Research is a full-solution Contract Research Organization (CRO) providing drug development services to the pharmaceutical, biotechnology and medical device industries. Our Global Headquarters are in Zurich, Switzerland, with Operational Headquarters in Essen, Germany, Philadelphia, United States, and Saint-Petersburg, Russia.

Currently we are recruiting for our office in Essen, Germany:

INTERNATIONAL AND NATIONAL PROJECT MANAGERS

As Project Manager you will be responsible for the management of one or more clinical studies from set-up through clinical study report and TMF completion. Supervision of the project's process in terms of budget, timelines, performance and quality. In detail you will be responsible:

- Ensure that all project management activities are carried out according to ICH GCP, regulatory guidelines and company or sponsor SOPs
- Leadership of one or more study teams. Verification of performance. Provision of study specific training for internal/external study team members
- Collaboration with members of the clinical trial team(s) and from sponsor to develop clinical trial documents (e.g. synopsis, protocol, Patient Information, TMF, IF...). Feasibility assessment
- Review of all study documentation to ensure quality and integrity of data, compliance with relevant SOPs and regulatory requirements
- Coordination, organization and participation of/in study specific meetings
- Supervision of trial related activities and legal trial status
- Coordination of study drug supply distribution and tracking
- Supervision of monitoring activities to ensure the monitoring is performed in accordance with study Monitoring Plan and client contract. Review of monitoring visit reports
- Verification that the study is ready for audits/inspections at all times and any result findings are addressed appropriately and in a timely manner
- Processing of Corrective and Preventive Action Plans (resulting from Audits and/or inspections)
- Meet patient recruitment targets. Contingency planning, follow up and closure of issues due time.
- Attendance and contribution to bid defense meetings as required

Requirements:

- Degree (B.S. or its equivalent) in a medical, life science/biological or health related field
- Experience as: International or National Project manager, Lead CRA, Study Manager or CRA
- Excellent organizational, team leading and communication skills
- Sound knowledge of GCP and relevant regulations
- Fluency in English in written and spoken for both Inter/National positions
- Fluency in German in written and spoken for the National PM position
- Good presentation and computer skills and experiences in the use of standard office programs

Interested? Then, we look forward to receive your CV in **English** with a current photo, and a brief letter with your **professional** and **salary expectations**, at: office.europe@pierrel-research.com for the **International PM** position or at applications@pierrel-research.com for the **National PM** position.
