

Pierrel Research is a fast growing global contract research organization with offices in Europe and USA. Our company offers a broad range of services, such as project management, monitoring, biometrics, data management, quality assurance, IMP production, pharmacovigilance/drug safety, scientific marketing, etc. to the pharmaceutical, biotechnology and medical devices industry.

Currently we are recruiting for our Headquarters in Zurich, Switzerland a:

PROPOSAL DEVELOPMENT MANAGER

As a Proposal Development Manager you will be responsible for analyzing information received in study specification sheets, protocols, case report forms and other supporting information used to prepare proposals and requests missing information from account manager. You will prepare and manage the development of appropriate resource/service fees using algorithms and electronic spreadsheets as well as maintaining up-to-date tracking in proposal tracking database of all proposals.

To secure this role it is essential you might have:

- Bachelor's degree in Business or Science
- Demonstrated experience working in Proposals in a CRO or other related industry.
- Excellent interpersonal, negotiating and communication skills, as well as have the ability to prioritize and meet strict deadlines
- Fluency in English

If you think that you are up for the challenge and have the necessary skills to hit the ground running then we look forward to receiving your CV in English including your contact details, a current photo and the reference PD Manager at the following e-mail address: office.europe@pierrelgroup.com

You will benefit from a dynamic and stimulating working environment, and a company which offers career development opportunities to its most performing employees.
